Election/Restrictions

1. A telephone call was made to Kirk Cesari on October 7, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, 14-17, 25, and 26, drawn to verifying read data and a time domain signal to noise ratio, classified in class 702, subclass 79.
- II. Claims 18-21, drawn to determining an ESNR of a mass storage device, classified in class 702, subclass 82.

3. Inventions I and II are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because group I discloses a method of verifying read data and retrying a time domain signal to noise ratio of a storage device while group II, the

subcombination, discloses downloading ENSR and determining ENSR value of a storage device.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

4. Applicant's election with traverse of claims 1-24 in Paper No. 7 is acknowledged. The traversal is on the ground(s) that the amendment has obviated the restriction requirement. However the amendment has necessitated a new restriction requirement.
